

ABOUT US

Our history

Suncrops was created after a collaboration of more than 40 years by two families in the fruit and vegetable industry.

The families, a Moroccan family composed of experienced growers and a French family composed of experienced importers with more than 30 years of experience in the business.

LOGISTICS

PRODUCTION

TOMATOES & BERRIES

Round tomatoes, beef tomatoes, cherry on the vine tomatoes, baby plum, blueberries and raspberries

Our team consists of 7 experienced growers with engineer qualification, who oversee 320 hectares of greenhouse production sites. All production sites are certified Global GAP, BRC and GRASP

We have 2 packing stations; SunCrops for round tomatoes, CropEnergy for Cherry vine, Baby plum and Berries.

We actively participate in the development of the Agadir area, employing more than 1,800 workers in our production sites and packing houses.

CITRUS

Oranges, clementine (easy peelers),
Nadorcott, Nour

We have 9 farms around Morocco and more than
2000 hectares of land.

Our packing station has a total capacity of 50,000
tons per year, we practice sustainable agriculture
and all production sites are Global Gap certified.
